HAYTI, MISSOURI, THURSDAY, NOVEMBER 13, 1919

1

## FOOTBALL

The "Little Home-town Team" will not have a game this week. Every effort is being put forth to make a decisive game of the Caruthersville-Hayti final on the 21st. New men are being tried out in the various positions; and it is quite likely that the team will give Caruthersville a surprise. Gurley, Moore, Coleman and Stroup will now, probably play the back-field positions during the second and fourth quarters. Moore is counted on to be the wizard. The team has depended on "straight football" till now, but is being worked out on trick plays galore. They lost to Kennett solely on Kennett's trick plays. The plays that have not been gainers will be discarded. The forward pass will be worked as never before. Hamilton will play "safety" when the team is on the defensive—and when Hamilton tackles a fellow he stays tackled.

Not even rain stops these two teams. Get out your rain coat for rain, your sunshade for sun; go with us to Caruthersville, and see the GAME of the year. Habeeb Saliba of Blytheville will umpire; Coach Ferd Corleaux of Cape Normal will be referee.

—Oh Boy! When on the way to see your best girl stop in at Elders & Elders Drug Co., and get her a box of Beech's pure chocolates—they'll delight and please her.

Mrs. J. W. Gaither and daughter, Miss Hattie, returned Wednesday night from several weeks' stay at Dawson Springs, Ky., both much improved in health.

—Go to Elders & Elders Drug Co. for face creams, lotions, powders, perfumes and toilet soaps. The better kind.

## STUDY YOUR TRACTOR TO AVOID TROUBLES

The best way to avoid tractor troubles, costly delays and repair bills is to know your tractor. One of the best ways to know your machine and how it operates is to make free use of the instruction book that comes with it. Most tractor concerns have very complete instruction books explaining the various parts of the machine, how each part operates, and how to care for it. These little books are furnished for the farmer's benefit and should be used. Always keep the book where it can be referred to. Do not leave it in the tool box where it will get dirty and greasy, torn and possibly lost.

Tractor troubles are due to many widely different and varying causes, and it would be utterly impossible to prescribe a panacea successful for all troubles. But the best insurance against trouble is a good understanding of the workings of the machine. The man who has least trouble with his tractor and who keeps it going longer than his neighbor, is the man who knows how each part of his tractor should work and how to quickly and intelligently locate and remedy troubles when they do occur.

—Be sure to go to F. M. Perkins' demonstration of Majestic Ranges, by an expert from the Majestic factory, during the week beginning Monday, November 22. Each purchaser of any style or size Majestic Range during the demonstration receives a gift of a full set of fine cooking ware, without extra charge.

B. F. Allen went to Lutesville Tuesday morning to visit his son, Ben L., and family.

—LIVERADE really acts on the liver. Why take calomel? For sale at Leffers Drug Store.

## A SUCCESSFUL OPERATION

Drs. F. A. and G. W. Elders did quite an art last Sunday afternoon, seldom done out of the city hospital, that of amputating the left arm of Alford Wolsey, a 14-year-old boy of Pascola, on the Bob Surge farm.

Some few weeks ago the young hand, making a very serious wound, received a gun charge in the left hand making a very serious wound. The doctors gave it prompt treatment but at the time thought it necessary to amputate the member, but desired to if possible save his arm.

Complications set up and the young fellow was brought to their office Sunday where they performed the operation. The following day the young man was motored in for further treatment and seemed to be getting along nicely. The arm was taken off just above the elbow.

## FOR RENT

Six-room house in good condition on five acres of ground; two acres of alfalfa. Has fine barn and outbuildings. Just outside of city limits; near both schools. Possession now. By the year at \$35 per month. Also four more acres with 3-room house; can be rented after Jan. 1, 1920. These two pieces of property adjoin. Will rent separately or all together. Mrs. Anna Lacy, 302 East 7th St., or phone 297, Caruthersville, Mo.

A letter received from Mrs. Lou Morris directs us to change the address of her paper. She is now at Hanford, California, and is enjoying good health. She has many friends here who are always glad to hear news of her.

## BANK OF HAYTI INSTALLS ALARMS

The management of the Bank of Hayti recently placed an order for the latest and best electric burglar alarm systems on the market, being purchased from the American Bank Protection Co., of Minneapolis, Minn.

Workmen have been busy all week making the installation of the system, it being done under the supervision of the factory expert, Robert Olson.

This burglar alarm system comprises of a two-ply steel lining over all the walls, floors, ceilings and doors of the money vault and that of the patrons' safety deposit vault. The two sheets of steel lining are separated by a composition of tin foil and fiber, made in such a manner as to form both the open and closed circuits.

Should it please Mr. Burglar to use oxy-acetylene to burn through either the heavy doors or brick walls of the vault, the heat would strike the tin foil, thus melting it and causing an open circuit. A similar plan is used for the yegman who would use chisel or drill, the instrument soon forming a closed circuit upon passing through the outer sheet and touching the inner sheet.

The doors of the vault are also protected in several manners. Combination is so wired should it be moved one-eighth of an inch either way would sound an alarm. Should the cashier neglect to close the vault doors on leaving at night a set time the gongs would sound. Or should an attempt be made to change any of the wiring, pry the gongs away from the walls or any way cut or remove cables or wires the alarm would be given. Neither can the vault be entered before the proper time after they have been closed.

There are two alarm gongs on the inside of the building, being placed on the front walls of the vault in constant view. Also a twenty-inch rapid fire gong mounted at the top on the front of the building. Any attempt to alter or change any part of the system either during the day or night this alarm will sound, it being loud enough to hear several blocks.

It is also arranged in case of a daylight holdup, there being many push buttons over the counters, floors and walls. As a safety device the mechanism of the system is placed inside the vault and could not possibly be tampered with until entrance was made, and any attempt to enter before the proper time each morning through the regular manner, drilling through any part or using oxy-acetylene gas burners would set the three alarms in action. This general alarm would set the whole city in arms and there could possibly be no chance for the burglars to escape.

A demonstration and test was given to the public this afternoon after three o'clock and practically the entire school attendance was there to hear the expert make explanation. The bank building was crowded for hours.

With the many bank robberies being featured in the papers, it is well that our own bank prepare against it—and there is never a case on record where a bank having this system has been robbed by burglars. Thus it is seen that your deposit of either money, bonds and papers is under absolute protection day and night.

## BEANS SELLING AT PRE-WAR PRICES

Housekeepers who are trying to win out in the high cost of living game this winter should not forget to serve navy beans. Navy beans are as cheap now as they were in 1915. During the war they rose in price as did other foods and in many cases exceeded the increase of other foodstuffs, since in 1917 and 1918 they cost two and one-half times as much as they did in pre-war days. Navy beans now, however, are the one food that has come down in price until it is as cheap as it was before the war. Since beans are good body building food they can at one or two meals each week take the place of meat. To thus serve them will save the thrifty housekeeper money.

Uncle Eben. "Popularity," said Uncle Eben, "kin be misleading." For instance, de man dat kin worry a tune out of a ukelele is alius mo' popular dan one dat keeps his mind on regular work."

## PEMISCOT COUNTY SECOND IN TRACTORS

The use of tractors for tilling the farms is becoming more and more necessary. It reduces man and mule power and does far more work at a smaller expense than the old method.

By counties of Southeast Missouri there are the following number in each of the counties:

Dunklin	41
Pemiscot	33
Cape Girardeau	33
Scott	27
Mississippi	25
Stoddard	22
New Madrid	19
Butler	10

A total in Southeast Missouri of 210 tractors for use on farms, and this does not include heavy farm trucks.

## AN EVENING IN THE ORIENT

Isn't there a mystic something about the Far East which is attractive to you?

In the very near future you will be given an opportunity to spend an evening in the Orient. The Excelsior Literary Society of the Hayti High School is working on a program consisting of a Japanese playlet, a variety of songs and a Japanese wedding. This program will portray in costume the quaint customs of the yellow people in a vivid and attractive manner.

The proceeds will be used for school purposes.

—LIVERADE is good for the child, good for the mother, good for the household. For sale at Leffers Drug Store.

A. M. Payne of St. Louis was here a few hours today attending to business. He still has some interest in this city.

## MRS. ANNA POWELL

Whereas, it has pleased God in his all-wise providence to bereave us through the death of our beloved Sovereign, Mrs. Anna Powell; and

Whereas, we, the members of the Woodmen Circle Grove No. 159, recall the unfailing loyalty of Mrs. Powell to our order and its members; and

Whereas, it is fitting that we publically record our sentiments regarding the great loss we have sustained and express our deep sympathy for the bereft family, therefore be it

Resolved, that these resolutions be adopted as an expression of our love for Mrs. Powell and the great loss to our society; and, Resolved, further, that we, the Woodmen Circle of Pecan Grove No. 159, extend to the family our deepest sympathy in this hour of their bereavement, and,

Resolved, further, that a copy of these resolutions be spread upon the records of this society and that a copy be sent to the family, and that a copy be published in The Hayti Herald.

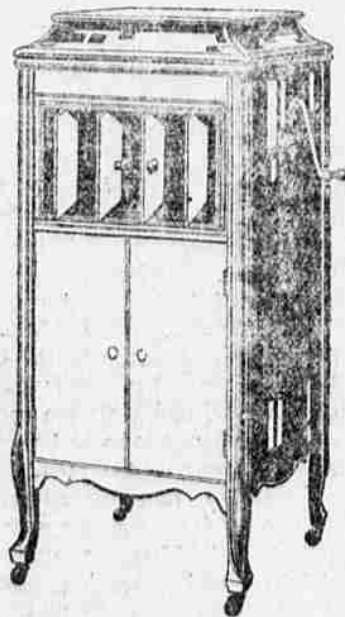

Signed,

RESOLUTION COMMITTEE.

—You will get a complete set of fine cooking ware as a gift—if you purchase your New Majestic Range at F. M. Perkins' Store during the week beginning Monday, November 22. An expert demonstrator from the factory will be there to show you the many exclusive features and superior qualities of the Majestic. Buy your range now and get this set of cooking ware absolutely without charge.

Geo. S. Brown and wife of Hornersville came up and spent Sunday morning with Mr. and Mrs. Wm. Helm. That afternoon the two families went over to Caruthersville and visited S. E. Juden and wife.

# Columbia Grafonola

**T**ONE is a test for the ear, not for the eye. The glorious voice of the Grafonola can sing its own praises far better than any words we can put in type.

Before you decide upon a phonograph you should certainly hear the Grafonola. Test its tone by ear. Play any record on any Grafonola—whenever you wish and as often as you like.

Our door opens with a welcome.

## The Best Pipeless Furnace on the Market Round Oak Pipeless Furnace Bolted Gas Tight—Patent Applied For IS A CLEAN SYSTEM

No dust, gas, or smoke can get into the rooms from this furnace because so constructed and installed as to prevent the one and ONLY cause.

Produced and guaranteed by the makers of famous, genuine Round Oak Stoves, Ranges and Heating Systems—The Beckwith Company, Dowagiac, Mich. Established in 1871. Resources over \$2,000,000.00.

Helps to solve H.C. of L. problem

## What It Will Do For You

Heats your entire house, large or small, upstairs and down, old or new, city or country, flooding it with an abundant supply of pure warm, ever-changing, moist air, permanently free from dust, gas, or smoke. Safeguards the welfare of your family by warming your home to a comfortable temperature in any weather.

Affords you the most convenient, easiest operated, simply regulated, safest, quickest heating, modern system you can own. Burns any kind of fuel, coal or wood, and saves 1-4 to 1-3 of your fuel bill.

Saves you many dollars in cost, compared to other types of heating systems. Increases the value of your property more than the amount invested in its purchase.

## Facts About Putting It In

Requires no space in rooms, least space in basement, easiest, least expensive and quickest to install in new or old buildings, does not warm basement enough to necessitate building special closet for storage of fruits and vegetables, reduces fire risk, will last a lifetime, barring abuse.
